***Pump station for the supply
of confectionery ingredients***

The pumping station is designed to supply products with low and high bribe (with heating): liquid glaze, natural chocolate, jam, etc.

Features:

- adjustable product feed drive;
- thermal control system;
- imported frequency converter.

Technical Specification:

Tank capacity, l	150
Pump productivity, max, l / h	600
Mixer shaft rotation frequency, rpm	56
Installed power of electric motors, kW	0,8
Electric power supply, V / Hz	220/50
Product heating temperature, max, 0C	60
Electric motor power, kW	4
Overall dimensions, mm	980 x 840 x 1 100
Weight, kg	151

This product can be manufactured according to the technical specifications of the customer, taking into account its predetermined parameters and features.

Food Machinery

Machinery for tires, rubber, plastics manufacturing

Modernization and automation of production

Non-standart equipment

Production of spare parts, components, assemblies

**Outsourcing services - repair and maintenance of
equipment**

Global engineering solutions
